Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The preliminary amendment filed on 10/11/2006 was received and entered.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 2-4 and 5-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 2 recites "...reproduction band increases from a central portion toward opposite end portions of the speaker array..". Claim 5 recites "wherein a passable frequency band of the primary filter of each of the unit speaker circuits is set so as to increase from opposite end portions to a central portion of the speaker array. The specification is not clear as to what is meant by the above noted claim language. The examiner is not sure how the language should be interpreted. Clarity is needed.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Furuta et al. (JP 06-225379).

Regarding claim 1, Furuta discloses a speaker system (Figure 6) comprising:

a speaker array including a plurality of speakers which are arranged into a matrix (loudspeaker arrays, 2, 3 Figures 1 and 6; 0019 under EXAMPLE section); and

a sound signal processing unit that divides a sound source into a plurality of bands and divides the speaker array into a plurality of reproduction regions so as to allocate the bands to the divided reproduction regions, respectively, the band of a high frequency being allocated a smallest one of the reproduction regions (Figure 6 illustrates that the high pass filter is allocated to one speaker; the one speaker reads on a smallest one of the reproduction regions).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DEVONA E. FAULK whose telephone number is (571)272-7515. The examiner can normally be reached on 8 am - 5 pm.
